THE SPACE WHERE THE FUTURE OF WORK COMES ALIVE

WORKSPACES BECOME A SOURCE OF INSPIRATION

INTERSTUHL
LIVEROOM

MAKING WORK EASIER WITH THE RIGHT ZONES

A space for actual work, not just a concept on paper: old boundaries and rigid structures were broken up. We moved away from long hallways and tiny cubicles to open, inviting zones that encourage networking. Each zone has its own clearly defined function:

- Work zones for focused work
- Meet zones for rapidly exchanging ideas
- Create zones for innovative impulses
- Relax zones for mental regeneration

Desk sharing has become a permanent fixture, as it allows for a flexible workspace concept that adapts to the requirements of our team to the greatest possible extent. Every area fulfills several functions and can be booked flexibly as needed. This allows everyone to work exactly where they need to be to really flourish.

In addition to the acoustics and materials, colour and light concepts that support and emotionally reinforce the functions of the individual zones also create an ideal environment. The result is the new Interstuhl Liveroom. A space that combines working with living.

“OUR AIM WAS TO CREATE
A SPACE THAT NOT ONLY
REFLECTS THIS TRANSFOR-
MATION BUT SHAPES IT.
FLEXIBLE. COLLECTIVE. REAL.”

HELMUT LINK, MANAGING DIRECTOR AND OWNER

WE DON'T JUST RECOMMEND WORK CONCEPTS. WE USE THEM OURSELVES.

From analysis to implementation: the Liveroom was planned, designed and supported by an interdisciplinary team. We utilised the full range of our Interstuhl room solutions, from the digital **goconut** and **intensor** services during analysis, to room planning, through to equipping all zones with our own products, products from network partners and special furniture items made by our in-house carpentry workshop. The result is a work environment that is not staged, but simply works.

80%

The Liveroom is where New Work lives and breathes: with the new room design, our team now consistently spend 80% of their time in the office. This shows that our new Liveroom is used, because it works, because it offers real added value every single day and because it meets the requirements for hybrid work. All that without needing to expand our existing spaces.

“ I’M NOW COMING TO THE OFFICE TWICE AS MUCH AS BEFORE. SIMPLY BECAUSE IT FEELS NICE TO WORK HERE. ”

This feedback shows that zoning supports focused work and encourages the exchange of ideas across teams. The atmosphere of the new workspace means that employees identify with the office more strongly. The Liveroom is not just accepted but valued.

The Liveroom is not a vision, but a real workspace at the headquarters of the Interstuhl Group. It is both a living test lab and a springboard for innovation and further development. It becomes evident in daily use what can be realised with advice, planning and implementation from a single source and how spaces can support transformations. Why not pay us a visit so that we can design your Liveroom together? [interstuhl.com/liveroom](https://www.interstuhl.com/liveroom)
